

**Letter of Recommendation**

Stockholm, January 22, 2011

Fredrik Rusch has performed his studies on the course "ERP System Configuration" and "ERP Systems and Service Oriented Architecture" in an excellent way. In the courses Fredrik showed that he can master both the theory of ERP systems and the technical detail required to configure complex ERP systems. Fredrik got top grades (A) on the courses.

I can highly recommend Fredrik for further studies, as he has proven to be an excellent student.

Martin Henkel

PhD, Assistant Professor  
Head of the Course "ERP System Configuration"  
Department of Computer and Systems Sciences,  
Stockholm University,  
Forum 100
